FOREWORD

The HCFA FDRMS INFORMATION CATALOG is a compilation of the forms produced by the Health Care Financing Administration to manage the Medicare/Medicaid programs. The purpose of such a catalog stems from the need to provide a concise and up-to-date report of forms information activity. Distributed by the Office of Budget and Administration, Division of General Services, for use throughout the Department of Health and Human Services, this catalog, consisting of three reports, is published semi-annually. Monthly supplements are available upon request.

The major reports that comprise the HCFA FORMS INFORMATION CATALOG are as follows: Active Forms, Forms Listed by Sponsoring Component, and Obsolete Forms. The form numbers contained in the reports are listed numerically. A glossary of the abbreviations and codes used to describe over 800 form entries appears as part of this introduction (see Index A).

The usefulness of the FORMS INFORMATION CATALOG as an effective resource guide is dependent in large measure on timely processing of accurate and complete forms status information. Users of this catalog are encouraged to assist us in maintaining correct information found in this text. To ensure that new information about the status of a form is transferred from the user to the editors of this publication in a timely and organized manner, we recommend that such information be submitted to the person designated as the Bureau Printing and Distribution Liaison Officer (PDLO). Consult Index B for a complete listing of the Central/Regional Office PDLOs.

To order additional copies of the FORMS INFORMATION CATALOG, or to obtain further information about this publication, contact the HCFA Forms Management Staff at 966-7863 or FTS 646-7863.
